Cosmology Research Group	
Infinscope, Webb Trivia	
Infinscope, Webb Virtual Tour	

Use the table below to keep track of the presentations you have attended and their corresponding code words.

## RECORD YOUR CODE WORDS

## COMPLETE YOUR PASSPORT TO WIN PRIZES!

As NASA prepares to launch the James Webb Space Telescope on December 18th, 2021 we invite you to share in the excitement of the launch by attending Arizona State University's Earth and Space Exploration Day.

Here's how it works:

1. Attend ESE Day and listen for Webb-related presentations.
2. Scan the QR code for each presentation with a smartphone camera.
3. Record the code word in your passport.
4. When you have at least 3 code words, scan the QR code in the bottom right corner and complete the form with your code words.
5. We'll mail your prizes to you.

Prizes will only be mailed to U.S. addresses.

\*This opportunity is open to travelers in grades K-12.

Fold 2

## ATTEND ASU'S EARTH AND SPACE EXPLORATION DAY

Fold 1

Attend any 3 Webb-related ESE Day presentations and submit your completed passport by 11/30/21 to win a special Webb poster and a NASA mystery prize.

To recognize your space-tacular efforts, and encourage you to learn more about Webb, we are offering prizes for travelers\* who participate in at least 3 Webb-related presentations at ESE Day on Nov 13, 2021.

Webb will be the most powerful space telescope ever launched into space and has potential to radically change our understanding of the Universe. We invite you to get to know Webb and share in the excitement through Arizona State University's Earth and Space Exploration Day!
